

Please do not change the current FM Translator Service. K-Love is a vital radio station in our community of Eugene, Oregon. We only have one other christian radio station among numerous secular radio stations. K-Love provides us with information about what local churches are offering, what concerts are coming to Eugene, and keeps believers apprised of current christian issues. They are a resident of our community. If K-Love was displaced with a LPFM broadcaster, we would not be connected with other christians, notified of what churches in the area are doing, and would be left without a christian source of inspiration. K-Love is in the best interest of the public. There are several business in the area that play K-Love daily, it is central to our community and our outreach to other christians. Please do not take this away from christians in the area, we support K-Love and it's ministry and need it in Eugene. Thanks.
